

Windows Virtual Desktop

Deliver the only multi-session Windows 10 experience

Product Overview

Windows Virtual Desktop is a comprehensive desktop and app virtualization service running in the cloud. It's the only virtual desktop infrastructure (VDI) that delivers simplified management, multi-session Windows 10, optimizations for Office 365 ProPlus, and support for Remote Desktop Services (RDS) environments. Deploy and scale your Windows desktops and apps on Azure in minutes, and get built-in security and compliance features.

Windows Virtual Desktop is right for you if:

- You need the ability to add users quickly and scale efficiently on demand
- Your end-users need a seamless rich client experience with Outlook, Search, Cortana, OneDrive, and Teams
- You need to manage different deployment types across different deployment planes
- You need to bring Remote Desktop Services (RDS) to your users with integrated security and management

Multi and single-session

- Fully managed, always up to date, modern Windows user experience
- Rich desktop experience accessible from any device
- Scale from one to thousands of user-sessions per Virtual Machine

App remoting

- Client-like experience including look-and-feel, Cortana, Edge, desktop search, and Microsoft Store
- Virtualize Store and legacy apps easily
- Controlled access, from full desktop down to specific apps only

Security Updates

- Full Windows 7 desktop
- Easily virtualize your existing Windows 7 applications
- Get free extended security updates for Windows 7

Why Windows Virtual Desktop?

Microsoft invests more than **USD 1 billion annually** on cybersecurity research.

We employ more than **3,500 security experts** completely dedicated to your data security and privacy.

Azure has **more compliance certifications** than any other cloud provider.

Manage users and security via a **unified administrative interface** in the Azure Portal.

Use familiar tools like Rest API & PowerShell to customize setup, deployment & UI.

Dynamically **scale virtual machines** using depth-first or breadth-first load balancing.

Partner with Us

Hitachi Solutions is a gold-certified, award-winning Microsoft partner with deep experience in designing, deploying, and supporting Microsoft Azure. We've helped hundreds of clients achieve cloud migration at scale and transform their business with Advanced Analytics, Developer Tools, Infrastructure, Data Estate, Governance and Security, and IoT.
