

Business Modernization Road-mapping Workshop

The Offer

True transformation is more than new technology – it requires vision and planning, mindset and culture shifts, new ways of operating and storing and securing data, as well as the ability to manage your change. It can be daunting to know where to focus your organizational change management initiatives and what to prioritize to ensure successful outcomes that provide the most business value.

Our comprehensive approach allows us to guide, advise, simplify, and support the digital initiatives that deliver the greatest value to your business. We align all the pieces, remove the obstacles, identify the most impactful solutions, and determine the best path – so you can move forward with confidence and swiftly and successfully achieve your business transformation goals.

Why Advisory Services?

- We meet you where you are to assess your organization's digital maturity
- Ensure leadership understands how transformation initiatives create value for your customers, employees, and stakeholders
- Show business development teams how to prioritize and translate customer needs into revenue-generating projects
- Help employees see how they can best take part in the transformation

Our Approach

Day 1

- Current state assessment
- Expert-led interviews with key implementation stakeholders and users

Day 2

- End-to-end business impact assessment
- Root cause analysis

Day 3

- Persona Identification
- Step-by-step journey roadmapping

Day 4

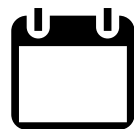

- Business metrics & KPIs
- Digital strategy & organizational readiness assessment

Day 5

- Road map presentation and stakeholder Q&A

Outcomes

- Customized Roadmap for migration and/or modernization
- Strategy to maximize user adoption and increase user experience through communications, training and reinforcement
- Change realization through organizational training guidance
- Alignment and strategy for technical innovation
