Easy. Actionable. Insight.
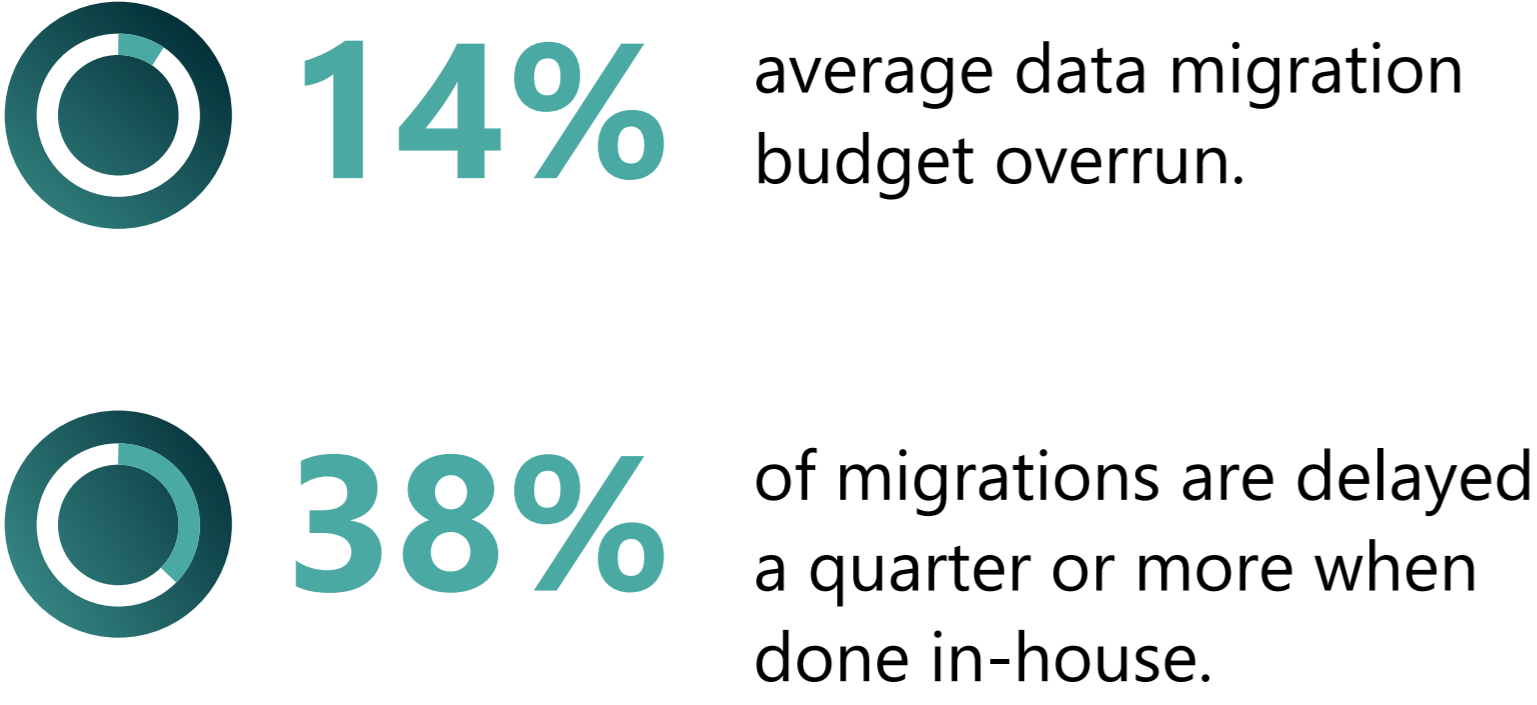

Unlock more insights from your data with
Hitachi Solutions, Microsoft Fabric and Azure Databricks.

⌄

Data is the Fuel that Powers Business.

Still, most enterprises can use only a fraction of their data—
leaving a valuable resource untapped.

20%
of business data is
available to analytics.

72%
of organizations cite data
management as a leading
obstacle to using AI.

80%
is out of reach of
analytics tools.

Cloud migration can increase data availability, but modernization
projects often get derailed, costing time and money.

14% average data migration
budget overrun.

38% of migrations are delayed
a quarter or more when
done in-house.

**Leading Challenges in
Data Migration**

Lack of dedicated staff

Insufficient skills

Stuck in prototyping

Our Customers Are Realizing Incredible Value.

Do more with your data, with less pain—and transform data into insights faster.
