

Hitachi Solutions Timesheet Management

Simplify and Standardize Your Time Entry Processes

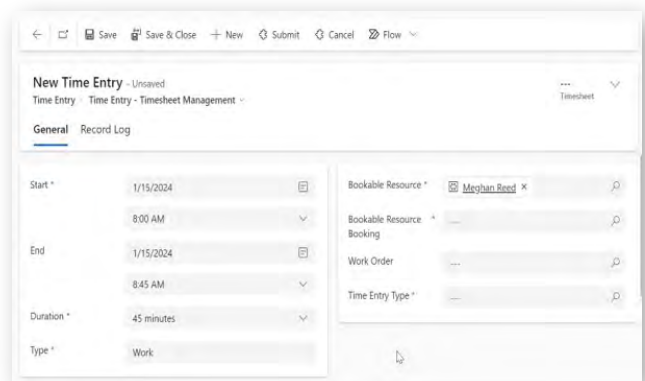

Hitachi Solutions Timesheet Management is an add-on solution for Microsoft Dynamics 365 Field Service designed to streamline and standardize time entry and timesheet management processes. This solution saves time, improves accuracy, and expands the capabilities of Dynamics 365 Field Service functionality, ensuring that you can make the most of your valuable time.

Features and Capabilities

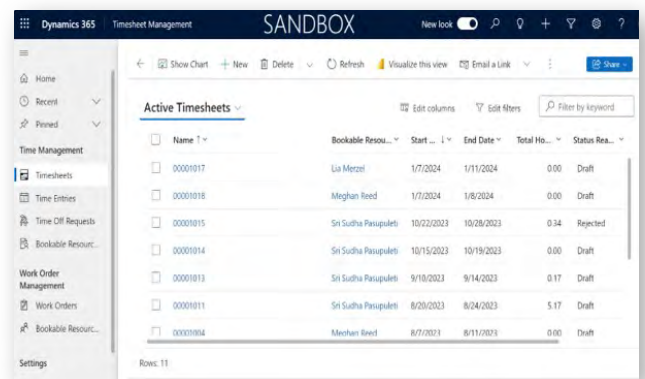

Automated Timesheet Generation

Automatically Generate Period-Based Timesheets: Reduce manual effort by automatically generating timesheets based on defined periods, ensuring consistent and timely creation of timesheets.

Time Entry Validation and Approval

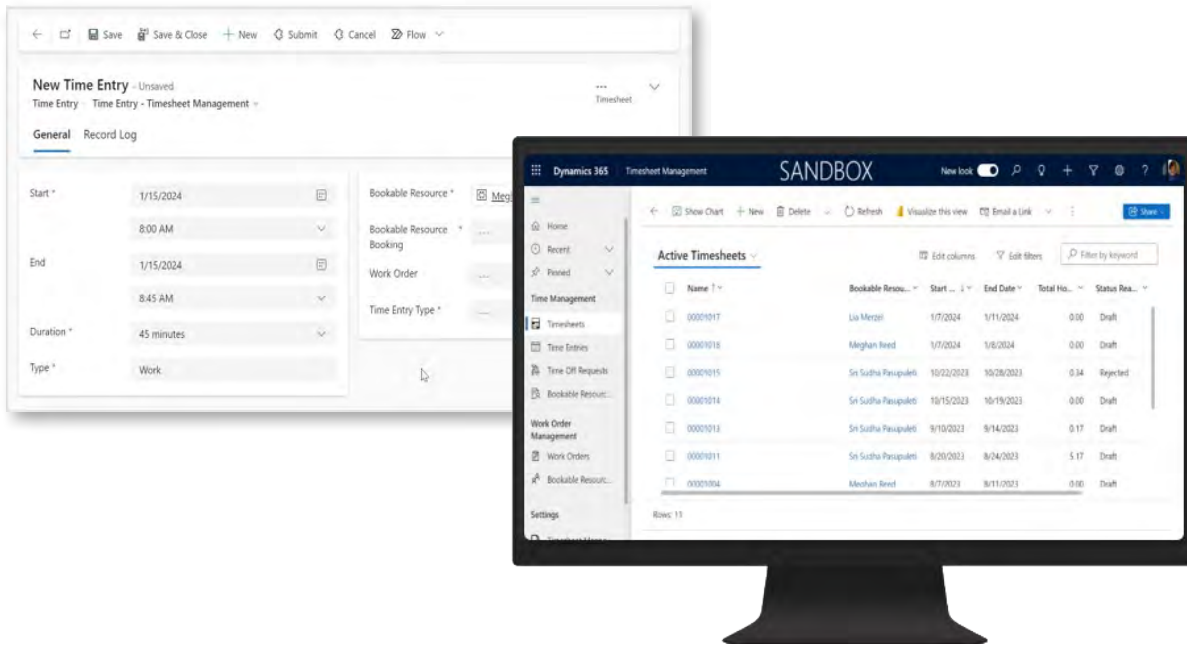

Validate Time Entry Approval Permissions and Enforce Logic: Ensure that only authorized personnel can approve time entries, and enforce approval logic to maintain operational efficiency and accuracy.

Enforced Time Entry Rules

Enforce Time Entry Rounding, Duration, and Relationship Rules: Standardize time entries by enforcing specific rounding, duration, and relationship rules, ensuring that all time entries meet organizational standards.

Enhance Dynamics 365 Field Service Work Order Time Entry Generation Logic: Improve the logic used to generate time entries from work orders, optimizing the integration with Dynamics 365 Field Service.

Business Outcomes

Implementing Hitachi Solutions Timesheet Management offers numerous benefits, including:

- ✓ **Increased Efficiency:** Automate time-consuming tasks, reducing the burden on managers and allowing them to focus on more strategic activities.
- ✓ **Improved Accuracy:** Enforce rules and logic to ensure that all time entries are accurate and compliant with organizational standards.
- ✓ **Enhanced Productivity:** Save time by simplifying and standardizing time entry generation and submission processes, leading to more efficient operations.
- ✓ **Seamless Integration:** Expand the capabilities of Dynamics 365 Field Service with enhanced time entry and timesheet management functionalities.
