Offer: Hitachi Solutions Empower Trial

Overview

The ability to collect, ingest, and leverage data is critical to gaining the powerful insights you need to be agile, adaptive, and competitive. **With streams of structured and unstructured information flowing in from many different sources every day, managing it in a timely and cost-effective manner can be challenging.** To get the most value and benefit, you need a streamlined and secure way to manage this deluge of data.

Enter **Hitachi Solutions Empower**, a revolutionary approach to automation of the data ingestion process. Empower **harnesses the power and speed of AI to dramatically accelerate, automate, and simplify the complex and costly task of creating and maintaining data ingestion.** From initial data acquisition and analytics engineering to the 24/7 labor of maintaining data publishing flows to the best-practice necessities, Empower does it all so your team doesn't have to.

To help you see how Empower creates value and adds velocity to your key business functions, we have created a **limited-time offer** for qualified companies. **Risk- and commitment-free**, you can evaluate Empower for **three months** to validate the **improved performance and reduced costs**. If at the end of the trial you're not convinced of the Empower value proposition, we'll remove the installation with no further obligation.

Timeline and Pricing

3 Month Trial

Varies – US\$70,000 or less

Why Take Action?

- **Improved Operational Performance** – through enhanced AI efficiencies
- **Decreased Onramp Time** – data acquisition is dramatically faster
- **Increased Consistency** – decreased reliance on SME “tribal knowledge”
- **Timely Data Access** – data flows to the reporting layer in near real-time
- **Improved Visibility** – cross-cutting business systems are fully integrated
- **Incremental Updates** – Power BI reporting refreshed with higher frequency

Outcomes

- **Fixed-fee Installation** – stand up of three operational non-production data flows
- **Full Support** – managed services during the 90-day trial period at a discounted cost
- **Integration** – to ingest data from external sources into a Delta Lake
- **Empower Modeling Engine** – required transformation to support downstream consumers
- **Roadmap** – actionable plan for future Empower platform adoption
